

I understand that you are considering changing the ability for this area (Grand Junction, Colorado) as well as for many other areas to hear KLOVE radio (FM). This is a very fine Christian Radio Station and is the only station that is on in our home. The positive ministry through music and God's Word is very encouraging to all in our home. From listeners that have called in during the recent KLOVE pledge drive, the ministry that they provide has had a very positive affect on many lives. We appreciate the ministry that they provide every single day. Please do not change the format of us being able to hear them in this area. We have no other options of this caliber in our area and we would greatly miss this station. Secular radio stations just don't have God's Word and Christian Music in their programming. Our faith is very important to us- changing the availability of us being able to receive KLOVE in this area would be most devastating to us. Thank you for reading this email.
